

Safeguarding Children in Banbury (SCIB)

Safeguarding Children in Banbury is a collaboration of schools, college, health, police, social care and additional support agencies. The aim is to educate and inform our young people and families. The group's objectives for the children/young people/community are as follows:

- I know how to keep myself safe from...
- I know how to keep my child safe from...
- We know how to keep our community safe from ...

It was decided that there would be three main focus areas across the year, the first being based around education on substance misuse/being healthy/good and bad habits; the second would be around Internet Safety and the third around exploitation.

The educational establishments would then all teach the same message at the same time of year, so the children and young people are all hearing the same messages in order to keep themselves safe.

SCIB aim to produce a publication which will show what our children have learned over the year and provide useful information for parents and carers.

This work will continue year on year, with the children being taught age appropriate lessons on how to keep themselves safe.
