

Miss Sylvia Thomas – Principal of Banbury Aspirations Campus

**Cashless Catering**

We have been using cashless catering successfully for a number of years, allowing students to purchase food and drink from our catering company, Edwards & Ward, without the need to bring cash into school.

A scan of a fingerprint is taken and stored (as a mathematical algorithm) allowing each individual student to be linked to a secure on-line dinner money account, which is used to pay for purchases in school. Students eligible for free school meals use the same system.

The law has recently changed requiring us to have your written permission to store the algorithm of your child’s fingerprint, whether or not your child already uses the system.

If you are happy for your child’s biometric information to be stored for use in our cashless catering system, please sign below.

Thank you for your response, and if you have any questions, please do ask.
